

Stand by the Standard!

Price's Cream Baking Powder is everywhere the acknowledged standard, the powder of the highest reputation, greatest strength, and absolutely pure. It renders the food more healthful and palatable, and using it exclusively you are assured against alum and other dangerous chemicals from which the low-grade powders are made.

Dr. Price's Baking Powder is sold on its merits only—never by the aid of batteries, gifts, commissions or other schemes. The entire value of your money comes back to you in baking powder—the purest, most economical made.

NOTE.—Alum baking powders are low priced, as they cost but three cents a pound to make. But alum leaves in the bread or cake glaucous salts, sulphuric acid and hydrate of alumina—all injurious, the last two poisonous.

In a Glass of Water.

Put a handful of *glazed* coffee in a glass of water, wash off the coating, look at it; smell it; is it fit to drink? Give

LION COFFEE

the same test. It leaves the water bright and clear, because it's just pure coffee.

The sealed package insures uniform quality and freshness.
